Brand Story

The MARRAM aesthetic, thoughtfully crafted for modern living.

LINEA is MARRAM's curated semi-custom cabinetry collection, created for contemporary residential projects that call for clean design, coordinated finishes, and a more efficient specification process.

Built around a focused range of door styles, finishes, and construction options, LINEA makes it easier to create cohesive kitchens, baths, and residential interiors. Frameless construction, performance-focused hardware, and an available plywood box upgrade provide practical flexibility across a range of project needs.

Designed for builders, architects, designers, dealers, and developers, LINEA supports projects that require modern cabinetry, dependable specifications, and a clear path from selection to quotation. The collection brings MARRAM's refined design language into a streamlined system built for real-world residential projects.

The LINEA Philosophy

Curated Selection

A focused range of door styles, finishes, and details makes selection easier while keeping each project visually cohesive and aligned with a clear contemporary aesthetic.

Modern Residential Design

Clean proportions, natural finishes, and practical functionality come together in cabinetry designed for contemporary kitchens, baths, and residential interiors.

Thoughtful Specifications

A defined product structure helps simplify specification, reduce unnecessary decisions, and keep projects moving efficiently from design through quotation.

Built for Trade Professionals

Designed for builders, architects, designers, dealers, and developers who need modern cabinetry, dependable options, and responsive project support.

The LINEA Look

"Luxury is not created through excess—it is revealed through balance, proportion, and thoughtful design."

Each LINEA project is defined by clean architectural lines, coordinated materials, and a focused range of door styles and finishes. These elements are designed to work together, helping trade professionals create cohesive kitchens, baths, and residential interiors with fewer decisions.

Designed with intention.
Crafted without compromise.

Ivory White & Nordic Oak

Light contrast. Natural warmth. A balanced modern palette.

Ivory White creates a bright, minimal foundation, while Nordic Oak adds warmth and natural texture. Together, they form a clean, versatile palette suited for contemporary kitchens and residential interiors.

Well suited for contemporary kitchens, open-plan interiors, and residential projects that call for a bright, natural palette with a warm modern character.

Super Matte PET:
Ivory White (IW)

Wood Grain Textured Melamine:
Nordic Oak (NOM)

Sand Oak

Wood Grain Textured Melamine:

Sand Oak (SOM)

Sand Oak brings natural warmth and subtle wood texture to a clean, contemporary setting. Its balanced tone pairs easily with warm stone, soft neutrals, and dark accents, creating a cohesive palette suited for modern residential interiors.

Well suited for contemporary kitchens, nature-inspired interiors, and residential projects that call for a warm, natural look without strong contrast.

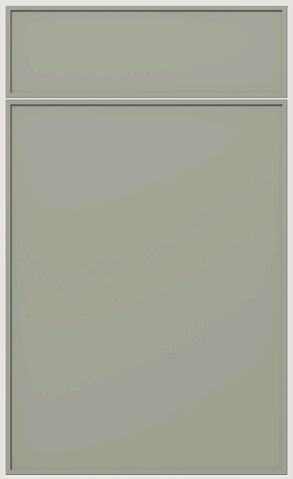

Natural warmth.
Subtle texture.

Nordic Oak & Evergreen Fog

Wood Grain Textured Melamine:

Nordic Oak (NOM)

Painted Finish:

Evergreen Fog (EF)

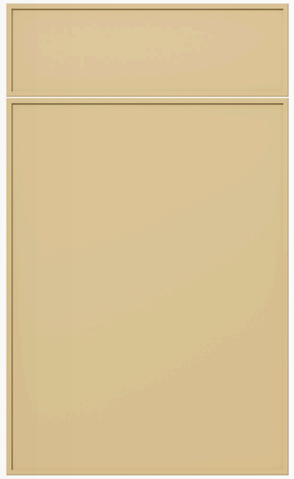

Nordic Oak brings natural warmth and subtle texture, while Evergreen Fog adds a soft, muted contrast. Together, they create a balanced palette that feels calm, contemporary, and easy to apply across modern residential interiors.

Well suited for contemporary kitchens, open-plan interiors, and residential projects that call for natural warmth, subtle color, and a softer modern character.

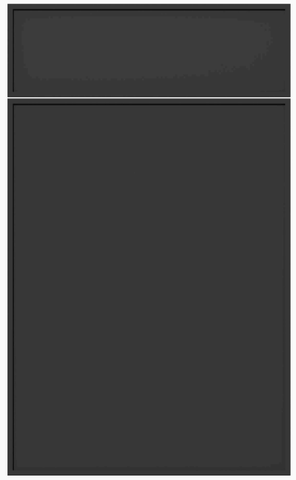

A more architectural expression.

Painted Finish:
Hay 37 (HY)

Painted Finish:
Tricorn Black (TB)

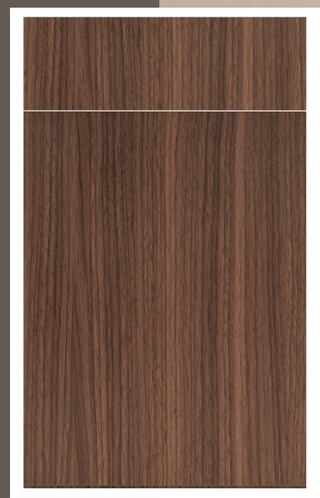

Hay 37 & Tricorn Black

Hay 37 introduces a soft, warm foundation, while Tricorn Black adds depth and definition. Together, they create a bold but balanced palette with clean contrast and a distinctly contemporary character.

Well suited for modern kitchens, urban residences, and residential projects that call for warm color with a stronger architectural presence.

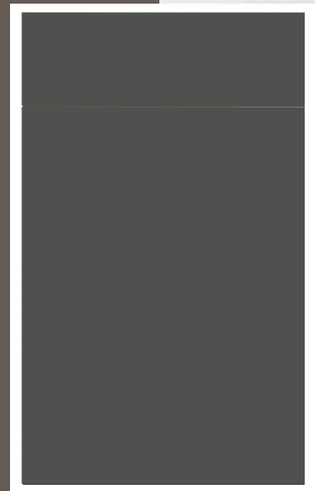

Wood Grain Textured Melamine:

Natural Walnut (NW)

Super Matte PET:

Charcoal Gray (CHG)

Natural Walnut & Charcoal Gray

Natural Walnut brings warmth and visible wood grain, while Charcoal Gray adds depth through a smooth, matte finish. Together, they create a balanced combination with strong material contrast and a clean architectural character.

Well suited for modern kitchens, urban residences, and residential projects that call for deeper tones, natural texture, and a more tailored contemporary look.

Cabinet Construction

LINEA is a frameless cabinetry collection engineered with premium high-density, five-layer FOSB furniture board to deliver exceptional stability, durability, and environmental performance. CARB2-compliant materials, European-style frameless construction, and refined interior construction create cabinetry designed for lasting beauty. Optional integrated Gola channel provides a seamless, handle-free architectural aesthetic.

11.	Handle-Free (Optional)	Gola Continuous Recessed Finger-Pull Channel

* **Plywood box** construction is available as an upgrade upon request

Door Style Overview

Five Door Styles. One LINEA System.

LINEA offers five distinct door styles, ranging from clean slab profiles to refined five-piece door designs . Each style brings a different character while working within the same semi-custom system, giving trade professionals greater design flexibility without complicating specification.

Coordinated finishes, balanced proportions, and a consistent construction platform make it easier to create cohesive kitchens, baths, and residential interiors across a range of project styles.

Finish Program

LINEA offers four coordinated finish families, making it easier to create a cohesive palette across each project. Wood Grain Textured Melamine, Super Matte PET, Painted, and Stained Finishes provide a balanced range of natural textures, soft neutrals, and deeper tones for contemporary residential interiors.

Each finish has been selected to work across the collection, supporting flexible combinations without adding unnecessary complexity to the specification process.

Project Applications

LINEA is designed for a wide range of residential project types, from individual kitchens and baths to developer homes and whole-home cabinetry packages. Its focused range of door styles, finishes, and construction options gives trade professionals the flexibility to create cohesive spaces while keeping specification clear and efficient.

Whether used for a renovation, ADU, spec home, or complete residential project, LINEA delivers a consistent modern look across each space.

Well suited for:

- Spec homes
- Developer homes
- Renovations and rebuilds
- ADUs and guest units
- Modern kitchen and bath projects
- Wardrobe and closet packages
- Whole-home cabinetry packages

Work with LINEA

Design Without Compromise. Specify with Confidence.

LINEA was created for architects, designers, builders, dealers, and developers who need contemporary cabinetry that is easy to specify and adaptable across a range of residential projects.Its focused selection of door styles, finishes, construction options, and accessories provides design flexibility without adding unnecessary complexity. Whether the project includes a kitchen, bath, wardrobe, or whole-home package, LINEA supports a clear process from product selection through quotation and ordering, with responsive guidance from the MARRAM team.

Responsive Quoting
Faster decisions, fewer revisions.

Curated Collection
Focused styles and finishes.

Simplified Specification
Clear product architecture.

Dedicated Partnership
Expert support from concept through completion.
